

NEW RHINO PK

THE ULTIMATE 4 IN 1 BLOOM BOOSTER!

★ HIGH ANALYSIS PK

Tank stable High Analysis chelated Phosphorous and Potassium increase flower yields by up to 30% supplying an instant burst of flowering minerals for explosive heavier blooms.

★ AMINO ACIDS

Turbo drive uptake, cell division and protein production for larger blooms and faster flower development.

★ VITAMIN COMPLEX

A special blend of Vitamin A and C speeds uptake and relieves Abiotic stress caused by high intensity environments to create flowers with better structure, colour, density and visual appeal upon finishing.

★ CARB BOOSTER

Larger calyxes with increased flavour and aroma, and sweeter results with enhanced essential oils, Terpenes and Trichome production.
